

BIOECONOMY STAKEHOLDER PLATFORM

developed by BIOEASTsUP Project

Dear members of the BIOEAST Board,

The [BIOEASTsUP Project](#) invites you to become a member of the BIOEAST Stakeholder platform. The Platform provides an opportunity for cooperation and networking among the regional stakeholders and institutions in various domains of the bioeconomy.

Your participation in the BIOEAST Stakeholder Platform will increase your visibility in the regional professional community and, looking from the opposite perspective, expand your horizons to meet, exchange and collaborate with regional bioeconomy experts on themes of your professional interest. You can create your profile on the Platform [here](#), you will be asked to state your

- core activities related to bioeconomy,
- feedstock types of your interest,
- value chain segments of your interest,
- sectors/topics of your interest and
- product types targeted.

When becoming a registered user of the BIOEAST Stakeholder Platform, the items listed above will assist you in narrowing down the selection of experts for your professional exchange.

Become a part of a growing and thriving professional community, working for a common goal – boosting sustainable and circular bioeconomy in Central and Eastern Europe!
