EUROPEAN UNION

What are EU Missions?

The European Commission launched **five new EU Missions in Oct 2020** – including the Mission “Restore our Ocean and Waters by 2030”

European Missions are **new broad mobilisation initiatives** to face the greatest challenges of our time

Rooted in the Horizon Europe research and innovation programme, **Missions go beyond R&I** and the existing instruments, cutting across policies, programmes and different levels of governance

They will develop and demonstrate innovative **technological, social, business and governance solutions**, and promote new forms of governance, allowing everyone to play an active role

Mission EU policy priority

“Every problem is an opportunity for innovation. But we need a clear and ambitious objective. We need a mission, like the European Green Deal.

*That is why we have launched the ‘Mission to Restore our Ocean and Waters by 2030’. With **EUR 0.5 billion in funding** from the world's largest research and development programme, Horizon Europe, and other instruments.”*
